

90TH CONGRESS
1ST SESSION

H. RES. 312

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 27, 1967

Mr. MILLER of California submitted the following resolution; which was referred to the Committee on Rules

MARCH 7, 1967

Reported with an amendment, referred to the House Calendar, and ordered to be printed

MARCH 8, 1967

Considered, amended, and agreed to

RESOLUTION

1 *Resolved*, That, effective from January 3, 1967, the
2 Committee on Science and Astronautics, acting as a whole or
3 by subcommittee, is authorized to conduct full and complete
4 studies and investigations and make inquiries with respect to
5 any matter or matters in or related to the fields of astro-
6 nautical research and development (including resources, per-
7 sonnel, equipment, and facilities), outer space (including
8 exploration and control thereof, and air and space law), and
9 other scientific research and development (including interna-
10 tional scientific cooperation) coming within the jurisdiction
11 of such committee: *Provided*, That the committee shall not

1 undertake any investigation of any subject which is being
2 investigated by any other committee of the House.

3 For the purpose of carrying out this resolution the com-
4 mittee or subcommittee is authorized to sit and act within
5 or without the United States, during the present Congress,
6 whether the House has recessed, or has adjourned, to hold
7 such hearings, and to require, by subpoena or otherwise, the
8 attendance and testimony of such witnesses and the pro-
9 duction of such books, records, correspondence, memoran-
10 dums, papers, and documents, as it deems necessary. Sub-
11 penas may be issued under the signature of the chairman
12 of the committee or any member of the committee designated
13 by him, and may be served by any person designated by
14 such chairman or member. The chairman of the committee
15 or any member designated by him may administer oaths
16 or affirmations to witnesses.

17 The committee shall report to the House as soon as
18 practicable during the present Congress the results of its
19 studies, investigations, and inquiries, together with such
20 recommendations as it deems advisable. Any such report
21 which is made when the House is not in session shall be
22 filed with the Clerk of the House.

23 Notwithstanding section 1754 of title 22, United States

1 Code, or any other provision of law, local currencies owned
2 by the United States shall be made available to the Com-
3 mittee on Science and Astronautics of the House of Repre-
4 sentatives and employees engaged in carrying out their offi-
5 cial duties under section 190 (d) of title 2, United States
6 Code: *Provided*, (1) That no member or employee of said
7 committee shall receive or expend local currencies for sub-
8 sistence in any country at a rate in excess of the maximum
9 per diem rate set forth in section 502 (b) of the Mutual
10 Security Act of 1954, as amended by Public Law 88-633,
11 approved October 7, 1964; (2) that no member or employee
12 of said committee shall receive or expend an amount for
13 transportation in excess of actual transportation costs; (3)
14 no appropriated funds shall be expended for the purpose of
15 defraying expenses of members of said committee or its em-
16 ployees in any country where counterpart funds are available
17 for this purpose.

18 That each member or employee of said committee shall
19 make to the chairman of said committee an itemized report
20 showing the number of days visited in each country whose
21 local currencies were spent, the amount of per diem fur-
22 nished, and the cost of transportation if furnished by public
23 carrier, or if such transportation is furnished by an agency of

1 the United States Government, the cost of such transporta-
2 tion, and the identification of the agency. All such individ-
3 ual reports shall be filed by the chairman with the Commit-
4 tee on House Administration and shall be open to public
5 inspection.

90TH CONGRESS
1ST SESSION

H. RES. 312

RESOLUTION

To authorize the Committee on Science and
Astronautics to conduct studies and investi-
gations and make inquiries with respect to
aeronautical and other scientific research and
development and outer space.

By Mr. MILLER of California
